100% U.S. GROWN & PROCESSED HEMP

We source our hemp from an Industrial Hemp farms that produce some of the most rich, Medicinal CBD Hemp in the USA. Our CBD is completely isolated through CO2 extraction & crystal precipitation & is of the highest grade, pesticide free, Non-GMO hemp in the world. These Industrial Hemp Farms are fully compliant with the State Department of Agriculture regulations & are large US distributors of Medicinal Hemp, rich in CBD, CBG, CBC & CBN.

OVER 60 CBD PRODUCTS...AND COUNTING!

WHY USE CBD PRODUCTS?

Humans & other mammals have endocannabinoid systems, specific cannabinoid receptor sites located primarily in the brain, the immune cells, central nervous system & peripheral organs. The endocannabinoid system has been found in all vertebrates. CBD interacts in a similar way in pets as it does with humans, therefore it can be used to treat similar conditions. CBD has no psychoactive properties.

Studies show that cannabinoids have anti-inflammatory effects & can help with a variety of ailments, such as allergies, loss of appetite, arthritis & joint pain, cancer, chronic pain, digestive issues, fatty tumors, glaucoma, homeostasis, IBS, inflammation, phobias, seizures, skin problems, muscle spasms, aggression, anxiety & neurological disorders. It can help with dogs that have separation anxiety, social anxiety, fear of thunderstorms or long-distance traveling. It is great for post-surgery recovery since it aids with swelling, pain & stiffness, as well as bone breaks, torn ligaments & strains.

Ideally with the advice of your vet, CBD could supplement synthetic drugs which contain many side effects, and can also be used daily to manage mood & pain.

Perfect for aging pets!
